Rohit Pandey

UI/UX Designer · Figma · HTML, CSS & JavaScript

+91 6205192103 | rohituiux45@gmail.com | linkedin.com/in/rohit-pandey-5544a819

PROFESSIONAL SUMMARY

UI/UX designer with nearly 3 years at Condigence LLP, a software agency, after 3 years of freelance graphic design, video editing, and UI work. Designs user flows, wireframes, and responsive high-fidelity prototypes in Figma, including customer, vendor, and admin experiences for a multi-vendor marketplace. Brings motion and visual design skills plus front-end fundamentals (HTML, CSS, JavaScript), and is proficient with AI tools like Claude Code and Copilot. Currently learning Flutter for cross-platform app development.

CORE SKILLS

UX Design	User Research, Usability Testing, User Flows, Information Architecture, Wireframing, Prototyping, Journey Mapping
UI Design	Responsive Design, Visual Hierarchy, Typography, Color Theory, Interaction Design, Accessibility, Reusable Components
Visual & Motion	Logo Design, Banner Design, Template Design, Animation, Video Editing
Design Tools	Figma, FigJam, Adobe XD, Photoshop, Illustrator, After Effects, Premiere Pro
Front-End	HTML5, CSS3, JavaScript (fundamentals) · Flutter & Dart (currently learning)
AI Tools	Claude Code, Copilot
Collaboration	Design Handoff, Developer Collaboration, Requirement Analysis, Agile, Documentation

PROFESSIONAL EXPERIENCE

UI/UX Designer · Condigence LLP — Nov 2023 – Aug 2026

- Designed UI/UX for the agency's client web and app products, turning business and user requirements into user flows, wireframes, high-fidelity screens, and interactive prototypes in Figma.
- Created reusable Figma components and patterns to keep responsive layouts consistent across products.
- Collaborated with developers and stakeholders through requirement discussions, design reviews, handoff, and implementation feedback, using front-end fundamentals to keep designs practical to build.
- Applied user-focused problem analysis and prototype iteration to simplify complex workflows.

Freelance Graphic & UI Designer · Self-employed — Aug 2020 – Oct 2023

- Designed UI screens for client projects and owned each engagement from brief to final delivery.
- Created logos, banners, and templates for multiple clients using Adobe Illustrator and Photoshop.
- Edited videos in Adobe Premiere Pro and produced animations in Adobe After Effects.

SELECTED PROJECTS

Maacko — Hyperlocal Multi-Vendor Marketplace — UI/UX Design · Condigence LLP

- Designed the end-to-end customer, vendor, and admin experience for a hyperlocal marketplace spanning electronics, e-scooters, women's clothing, and ornaments.
- Mapped workflows and created wireframes, dashboards, product and order flows, profile screens, and responsive high-fidelity UI.
- Streamlined the product-buying journey based on feedback from prototype reviews.

NeerSeva — Water Management & Service Platform — UI/UX Design

- Designed the complete UI, user flows, wireframes, and high-fidelity prototypes for a platform focused on service requests and monitoring.
- Prioritized usability and accessibility with simple navigation, clear hierarchy, and intuitive interactions.

EDUCATION

Bachelor of Arts (B.A.) · J.N. College, Dhurwa (Ranchi University) — 2017 – 2020
